Brendan Dasilva

brendan.dasilva@gmail.com   519 - 616 - 1189   brendandasilva.github.io/portfolio

I'm a junior web developer focused on creating dynamic, user-friendly websites and apps. A recent grad of George Brown's Computer Programming & Analysis program, I have a solid foundation in multiple languages and frameworks including JavaScript, React, and Angular.

Education and Certifications

COMPUTER PROGRAMMING & ANALYSIS

George Brown, class of 2025

UDEMY BOOTCAMPS

- **The Complete Developer Web Development Bootcamp**, 2023
- **The Complete JavaScript Course**, 2023
- **Node.js, Express, MongoDB & More: The Complete Bootcamp**, 2024
- **The Complete React Native + Hooks Course**, 2024

Skill Set

FULL STACK WEB DEVELOPMENT

- Applied knowledge to build & develop a variety of websites and web-based apps.
- Solid understanding of web development technologies (**HTML5**, **CSS**, **JavaScript ES6+**)
- Knowledgeable in both **MERN and MEAN development stacks**:
  - Proficient with modern **React**, **Angular**, and **TypeScript** (including hooks, server components, and state-management.)
  - **NoSQL** (MongoDB) and **SQL** experience.
- Experience with API integrations (**REST**) and asynchronous request handling and **JSON** data management.
  - Conducted API testing utilizing **Postman** and **GraphiQL**.
- Knowledge of basic security principles (XSS, CSRF, authentication).

Skill Set, continued

PROGRAMMING

- **Develop clean and maintainable code** by ensuring that code is **well-documented**, refactored, and efficient.
- Strong problem-solving and **debugging** skills; comfortable **trouble-shooting** independently but knows when to reach out for assistance.
- Experience with **containerization tools** (Docker)
- Experience with **CI/CD pipelines** & deployment automation (**GitHub Actions**, **Heroku**, **Vercel**)
  - Experience working in terminal (Bash)
- Continuously learning by staying updated on modern tools, frameworks, and technologies to improve workflows and solutions.

MISCELLANEOUS

- **Motivated self-starter** capable of working successfully both independently or within a team.
- Highly proficient computer skills and very comfortable learning new programs and software.
- Strong work ethic; ability to adapt and problem solve on the fly.
- Enthusiastic about web development & programming; dedicated to continuous learning.
- Highly organized and punctual, strong time management skills, able to balance & prioritize parallel deadlines, ensuring nothing gets missed.
- Ability to multi-task and rotate between tasks while keeping organized.
- Clear, open communication both verbal and written.

Relevant Work Experience

PURCHASING COORDINATOR, *Electrical Guillevin International   2020 – 2023*

- Responsible for researching & preparing complex high-budget orders; self-proofed work regularly to ensure standards and requirements were successfully met.
- Collaborated with sales team to identify and address possible issues in advance.
- Maintained clear communication with different departments & third-party vendors.

ELECTRICAL APPRENTICE, *Conestogo Electric   2014 – 2020*

- Worked in both commercial & industrial settings; projects included new builds, renovations, and service & maintenance.
- Read detailed blueprints and scaled drawings, with a high attention to detail and clear documentation for other team members.
- Communicated with team members across different industries, ensuring all individuals on-site were informed on a project's progress.
